Manikandan S

Software Engineer (iOS) at PayPal | Swift | SwiftUI
Chennai, Tamil Nadu, India

Summary

Hello everyone, Manikandan here.

I am a software developer with 3 years of experience in ios development who is keen in solving real world problems. During my career, I have learnt the following skills such as swift, swiftUI ,MVVM ,CoreData, SPM etc. I completed my Bachelor of Engineering in Computer Science in 2022. I have love towards software development especially in mobile.

Experience

PayPal

Software Engineer (iOS)
April 2025 - Present (1 year 3 months)
Chennai

PayPal World Team

PayPal ↔ Venmo

Interoperability

Built end-to-end interop feature enabling PayPal users to search Venmo users and send money seamlessly across iOS platform.

PayPal ↔ Venmo Interoperability (Redesigned

App):

Leveraged existing interoperability knowledge to support and developed certain features for the same interop functionality in PayPal's newly redesigned iOS app.

Merchant & Payment Testing App:

Developed internal iOS merchant and payment application to test payment APIs and app-switch flows using URL schemes, enabling faster validation of merchant integrations on mobile.

Facilio: Data-driven Building Operations

3 years 2 months

Software Developer (iOS)

July 2022 - April 2025 (2 years 10 months)

Chennai, Tamil Nadu, India

Integrated fastlane into the project to automate the build process.

Rebranded an app named FM+ and published it in appstore. <https://apps.apple.com/in/app/fm/id6503143206>

Built a rich text comment editor for posting comments. Used WKWebView for the comments editor. Handled mentioning the users and records in webview. Established the communication between native and javascript using webkit. Used SwiftUI framework for developing the UI elements.

Developed Service Request feature for the product. Created a package for showing the list of tags which is used to mention the users in To field like in mail. UI part for the list of replies and comments was done using SwiftUI.

Developed field service management(FSM) from scratch with a team of two using MVVM pattern. Developed UI widgets using UIViews which was rendered using pagebuilder framework. Used the SwiftUI framework for developing the UI.

Software Developer Intern

March 2022 - June 2022 (4 months)

Chennai, Tamil Nadu, India

Had hands on experience in submitting the apps to appstore.

Developed a custom alertview using UIKit and changed it all over the app.

Gained knowledge about UIKit,storyboard, UITableView, URLSession, custom cells while developing the sample application.

TCR Innovation

Back End Developer Intern

June 2021 - August 2021 (3 months)

The Sparks Foundation
Web Development Intern
March 2021 - March 2021 (1 month)

Education

SSN College of Engineering
Bachelor of Engineering - BE, Computer Science · (2018 - 2022)
