Suvan S.

Software Engineer @ PayPal | Spring Boot Backend Development,
Kotlin Android Development, Python, Web Development, Machine
Learning

Coimbatore, Tamil Nadu, India

Summary

As a BE Computer Science student at PSG College of Technology, I am passionate about applying my technical skills to solve real-world problems and create value. I have completed multiple certifications in Python, web development, and data analysis, and have gained hands-on experience in these domains through internships and projects.

I recently interned as an SDE Intern at PayPal, where I built a scalable and maintainable testbed for the Advanced Credit Debit Card's team SDK and APIs. I also worked as a Data Analyst at TVS Motor Company, where I created a pipeline for the data related to electric scooters. I enjoy working in technically challenging roles and collaborating with diverse teams to deliver high-quality solutions. I am eager to learn new skills and technologies, and to contribute to the growth and success of the organizations I work with.

Experience

PayPal

Software Engineer

July 2024 - Present (2 years)

Chennai, Tamil Nadu, India

Selected for PayPal's Quantum Leap initiative after an Android & iOS bootcamp for new grads.

Built and released an internal Android test app to Play Store, migrating its backend from legacy servers to AWS and automating deployments via webhook triggers.

Worked on conversion rate analysis for PayPal App Switch, identifying flow gaps and fixes that improved conversion and login success rates.

Joined the Advanced Credit & Debit Card team, contributing to scheme expansion (CUP, Diners, Discover) across 28 countries and handled cross collaboration with other teams to support End to End Testing.

PayPal

Software Engineer Intern

May 2023 - July 2023 (3 months)

Chennai, Tamil Nadu, India

Interned at PayPal's Advanced Credit Debit Card's team to build a testbed for the team's SDK that's provided to the merchants for checkout and payment. Later added testing provisions for their APIs and ease of adding new features. So it's a one stop solution which is scalable and maintainable.

TVS Motor Company

Data Analyst

September 2022 - February 2023 (6 months)

Hosur, Tamil Nadu, India

A part-time internship at TVS Motor Company Limited, Hosur where I worked on creating a pipeline for the data related to electric scooters can be made suitable for Data Analysis.

Education

PSG College of Technology

Bachelor of Engineering - BE, Computer Science · (2020 - 2024)

Satchidanandha Jothi Nikethan

High School, Science · (June 2013 - March 2020)
