Mayank Kumar

Software Development Engineer 1 @ Blinkit
Gurugram, Haryana, India

Summary

Currently serving as a Software Development Engineer 1 at Blinkit, focusing on building scalable backend systems to enhance pricing processes. Contributes to system performance and reliability using Golang, distributed systems, and event-driven architectures. Earned a Bachelor of Technology in Computer Science from IIIT Guwahati in 2024. Possesses technical skills in Golang, PostgreSQL, and vector databases, complemented by certifications in data science and machine learning. Dedicated to delivering solutions that optimize operations and drive innovation.

Software Development Engineer 1
July 2024 - July 2025 (1 year 1 month)
Bengaluru

- Resolved key SNAG errors, reducing error frequency by more than 90% and improving system reliability.
- Took ownership of Tag Service, reducing production error count by over 85% through enhanced monitoring.
- Resolved critical backend bugs across multiple services and handled on-call duties. Improved team knowledge sharing and onboarding.

SDE Intern(COE-ML)
January 2024 - June 2024 (6 months)
Pune, Maharashtra, India

RediMinds, Inc
AI Research Intern
June 2023 - August 2023 (3 months)
Michigan, United States

Robert Bosch Centre for Data Science and Artificial Intelligence
(RBCDSAI)

Summer Intern
May 2023 - July 2023 (3 months)
Chennai, Tamil Nadu, India

Worked on the project Polymer Property Predictions using state-of-the-art Graph Neural Networks with Multi-Task Learning.

Co-Founder
April 2021 - December 2022 (1 year 9 months)
Guwahati, Assam, India

Indian Institute of Technology, Guwahati
Research Intern
October 2022 - November 2022 (2 months)
Guwahati, Assam, India

Indian Institute of Information Technology Guwahati
Summer Research Intern
May 2022 - July 2022 (3 months)
Guwahati, Assam, India

I worked on Quality of Service (QoS) Recommendation Systems Using AI and Deep Learning architectures such as Transformers under supervision of Dr. Soumi Chattopadhyay (Assistant Professor, Dept. of CSE, IIITG). My responsibilities included collection of raw data, data cleaning, data processing, coding custom algorithms, checking the accuracy of the algorithms and developing Machine Learning models using Neural Networks.

Education

Indian Institute of Information Technology Guwahati
Bachelor of Technology, Computer Science and Engineering · (2020 - 2024)

Shiv Jyoti Convent School

Class 12

Kendriya Vidyalaya No.1 Salt Lake

Class 10 · (2012 - 2018)

Shiv Jyoti Convent School
