Anugya Jain

SDE @Blinkit || Ex-SE @Lowe's
Gurugram, Haryana, India

Summary

I'm a Software Engineer with expertise in designing scalable backend microservices and enhancing customer experiences. At Lowe's India, I work on migrating infrastructure, optimizing APIs, and building reusable libraries that improve system performance and reduce complexity.

I thrive in collaborative environments, solving complex problems, and continuously adopting new technologies to drive impactful results.

Experience

Blinkit

Software Development Engineer
August 2025 - Present (10 months)
Gurugram

Lowe's India

2 years 2 months

Software Engineer

May 2025 - August 2025 (4 months)
Bengaluru, Karnataka, India

Associate Software Engineer

July 2023 - May 2025 (1 year 11 months)
Bengaluru, Karnataka, India

As an Associate Software Engineer, I optimized conversational solutions for 1500+ stores and contact centers by developing and deploying scalable microservices. I focused on building resilient REST APIs, ensuring system reliability through thorough testing, debugging, and clean coding practices. I resolved complex issues, improving app performance and ensuring long-term stability. Additionally, I drove the adoption of new technologies, fostering team innovation and delivering significant improvements.

Amazon Development Center
Software Developer Engineer

July 2022 - August 2022 (2 months)

Pune, Maharashtra, India

Built an API for Automation to find inactive clients and remove them automatically as a part of Deprecation project

CodeChef KIET Chapter

Core member

July 2021 - January 2022 (7 months)

Organizing contest on codechef

Education

KIET Group of Institutions

Bachelor of Technology - BTech, Computer science and information technology · (2019 - 2023)
