SDE @ Blinkit (Eternal) | B.Tech CSE'24 @ IIT BBS
Greater Kolkata Area

Experience

Blinkit

Software Development Engineer 1

June 2024 - Present (2 years)

Gurugram

Pricing

- Designed and implemented streamlined liquidation pricing for Blinkit warehouses, reducing dumping of near-expiry staple items by 50%.
- Automated a previously manual weekly process, cutting Staples Ops bandwidth by over 80% and improving overall operational efficiency.

Platform

- Re-architected Blinkit's Feature Store into a scalable multi-tenant platform used across Blinkit and Bistro.
- Enabled core use cases including user personalisation, segmentation, karma, and experimentation, significantly improving feature reuse and platform reliability.

Samsung R&D Institute India

PRISM Research Intern

August 2023 - April 2024 (9 months)

Bhubaneswar

- Engaged with Samsung Research Team in developing a trans-compiler for C++ to Rust using AI/ML approaches.
- Published research paper in MICA 2027, regarding creation of over 13k+ parallel datasets developed while exploring the above.

Accenture

Platform Security Intern

June 2023 - July 2023 (2 months)

Kolkata

- Performed Penetration Testing to detect security failures in provided applications using Burp Suite.
- Developed Security Guidelines for efficiently addressing vulnerabilities in SAP BTP
