## Top Skills

Linux

Core java

Hibernate

## Certifications

Microsoft Certified: Azure Fundamentals

Introduction to the Internet of Things and Embedded Systems

Microsoft Certified: Azure Data Fundamentals

The Arduino Platform and C Programming

# Tanu Jain

SDE II @ Microsoft | Ex- Amex | Java | C++ | SpringBoot | React |  
Microservices | RESTful APIs | SQL | Shell Scripting | Docker  
Hyderabad, Telangana, India

## Summary

A tech enthusiast with around 5.7 years of experience in JAVA and Spring Boot with a proven track record in designing and implementing robust and scalable solutions. Adept at leveraging the Spring Boot framework to create efficient and high-performance backend systems, specializing in RESTful API development.

Frameworks: Spring Core, Spring MVC, Spring Boot

Programming Languages: JAVA, Python, C++

Data Access Layer: Hibernate, JPA

Database: MongoDB, MySQL

Monitoring Tools: Splunk, Grafana, Dynatrace

UNIX/LINUX Operating System, Shell Scripting

Utilities: Git, JIRA, Confluence, ServiceNow, GitHub, Postman

Other Tools/ IDE: IntelliJ IDEA, Visual Studio Code, WinSCP, Putty

---

## Experience

Microsoft

SDE 2

June 2024 - Present (2 years 1 month)

Hyderabad

American Express

3 years 10 months

SDE II

September 2022 - June 2024 (1 year 10 months)

Bengaluru, Karnataka, India

- Proficient in Java 8, Data Structures, and OOPS concepts.
- Followed SAFe Scrum Agile processes to ensure timely delivery and efficient collaboration.
- Leveraged Java Spring Boot to architect and develop a robust backend system.

- Applied Spring MVC architecture to structure and organize code, enhancing scalability and maintainability.
- Designed and implemented RESTful APIs to facilitate efficient communication between client and server.
- Implemented and managed data storage using MongoDB, a NoSQL database, for its flexibility and scalability.
- Integrated Hibernate and utilized JPA Repository for common CRUD operations, reducing boilerplate code.
- Implemented centralized Exception Handling to handle common exceptions and provide consistent error responses across the API Endpoints.

## SDE I

September 2020 - September 2022 (2 years 1 month)

Bengaluru, Karnataka, India

- Developed Microservices using Spring Boot, adhering to best practices for modularity, scalability, and maintainability.
- Contributed to the development of RESTful APIs for Self Service Portal using Spring Boot and Spring Data JPA.
- Utilized Docker to build project images, streamlining development and ensuring consistent deployment across environments.
- Experienced in implementing Dependency Injection to manage component dependencies and promote loosely coupled design in Spring Application.
- Integrated portal with CI/CD pipeline, automating the deployment process, utilizing DevOps tools like GIT and Maven for streamlined development and deployment processes.
- Integrated Splunk, Grafana & Dynatrace for real-time monitoring, analysis, and visualization of log data generated by the system.

## C-DAC

Intern

May 2019 - December 2019 (8 months)

Jaipur Area, India

---

## Education

Banasthali Vidyapith

BTech - Bachelor of Technology, Computer Science · (July 2016 - July 2020)
