# Shalini Reddy Beedupalli

Software engineer at Cognizant  
India

## Summary

Java Full Stack Developer with 3+ years of experience building scalable enterprise applications using Java, Spring Boot, Microservices, and ReactJS.

Experienced in designing end-to-end systems including backend services, REST APIs, database integration, and responsive frontend development using ReactJS. Skilled in Docker, Kafka, AWS, and implementing secure applications using Spring Security, and OAuth 2.0.

I regularly collaborate with cross-functional teams including other backend developers, QA, DevOps, and product teams to deliver reliable features and ensure smooth production releases. Known for taking ownership, solving complex issues, and building clean, scalable, and production-ready systems.

Currently open to Java Full Stack / Backend / Microservices opportunities
