Sanjoli Watts

Software Engineer III at PayPal | Mentor | Ex-Flipkart
Bengaluru, Karnataka, India

Summary

With 7 years of experience in software development, I have built a strong foundation in analytical thinking, leadership, and problem-solving. I thrive in fast-paced, dynamic environments, contributing to high-impact product development while optimizing workflows and driving innovation.

I believe in both "doing things right" and "doing the right things," balancing technical excellence with strategic decision-making. My ability to blend creativity with data-driven insights helps me design scalable, efficient solutions that add real value.

Passionate about innovation and collaboration, I'm always looking for ways to enhance processes, mentor teams, and push boundaries in technology. Let's connect and explore opportunities to build something great together!

Experience

PayPal

Software Development Engineer III
March 2023 - Present (3 years 4 months)
India

Crio.Do
