Himanshi Kukreja

Software Engineer @ PayPal | Backend Development | Generative AI Tools | IIT Jodhpur (AI & DS)
Hisar, Haryana, India

Summary

I'm a Software Engineer at PayPal, where I work on backend development and build AI-driven tools that enhance developer efficiency and product reliability.

Over the past year, I've contributed to PayPal World, a global payments initiative that enables cross-border checkout via external wallets such as UPI and WeChat Pay. I've also developed internal tools leveraging LLMs and RAG to automate debugging and generate production-ready code from design inputs.

I'm deeply interested in scalable software systems and how AI can augment engineering workflows—making development faster, smarter, and more intuitive.

A graduate of IIT Jodhpur in Artificial Intelligence and Data Science, I'm constantly exploring new technologies, learning from peers, and striving to grow as a well-rounded engineer.

Experience

PayPal

Software Engineer
July 2024 - Present (2 years)

PayPal

Software Engineer Intern
May 2023 - August 2023 (4 months)
Bengaluru, Karnataka, India

Code for GovTech (C4GT)

Software Developer
June 2022 - August 2022 (3 months)

contributor in open source program codeforgovtech

Education

Indian Institute of Technology Jodhpur

Bachelor of Technology - BTech, Artificial Intelligence and Data
Science · (2020 - 2024)
