Mayur Sawarkar

Software Engineer-2 at PayPal

Bengaluru, Karnataka, India

Summary

I'm a Software Developer with 4+ years of experience specializing in Identity, Authentication, and Authorization technologies — including OAuth 2.0, OpenID Connect, and Open Banking.

At PayPal, I've contributed to multiple global-scale security initiatives, including helping the company achieve FAPI certification from the OpenID Foundation, among the first in the world.

I have hands-on expertise in building secure APIs, automating CI/CD pipelines with Harness, and migrating services to GCP. My work spans microservice architecture, API security, and compliance-driven engineering, ensuring both scalability and trust.

I'm passionate about solving complex problems, driving automation, and delivering impactful solutions that improve developer experience, strengthen system integrity, and enable safe financial interactions globally.

Experience

PayPal

5 years 5 months

Software Engineer-2

April 2023 - Present (3 years 3 months)

Bangalore Urban, Karnataka, India
