Harsha Vardhan Thakkalapelly

Software Engineer @PayPal
Warangal, Telangana, India

Summary

As a dedicated computer science student with a strong passion for technology, I am constantly exploring new ways to leverage my skills to solve real-world problems. My academic journey has been fueled by a deep curiosity for how things work, from the intricacies of algorithms to the architecture of complex systems. I am particularly fascinated by software development, where I can turn ideas into tangible solutions.

Beyond the classroom, I've had the opportunity to apply my knowledge in real-world settings, including a recent internship at PayPal. This experience not only enhanced my technical abilities in REST APIs, Java, and Spring Boot but also reinforced my belief in the power of collaboration and continuous learning.

I am always eager to embrace new challenges and technologies, and I thrive in environments that encourage creativity and innovation. My goal is to contribute to impactful projects that drive technological advancement and improve user experiences. I'm excited to connect with professionals who share my passion for technology and to continue growing as a developer and problem-solver.

Experience

PayPal
Software Engineer
July 2025 - Present (1 year)
Bengaluru
Consumer Credit Risk Team

Working in the Consumer Credit Risk team, supporting the evaluation of customer credit applications across PayPal's revolving credit products. Involved in assessing credit and fraud parameters and executing decision strategies through rules and model-based engines.

The real-time credit evaluation process includes integration with third-party credit bureaus such as TransUnion and Equifax and other fraud vendors for decisioning.

Developing backend services using Java and Spring Boot for credit application workflows.

Skills: Java, Spring Boot, REST APIs, SQL

PayPal

Software Engineer Internship

May 2024 - August 2024 (4 months)

Bengaluru, Karnataka, India

I had the opportunity to work as a Software Engineer Intern at PayPal within the PayPal Credits team. During this internship, I gained hands-on experience with REST APIs, Java, and Spring Boot. I also developed a validation tool that facilitated the internal migration from Zoot to DPGS, contributing to a smoother transition and enhanced system performance.

Education

SR University

Bachelor of Technology - BTech, Computer Science · (January 2021 - May 2025)
