Debangshu Saha

Software Engineer at @Paypal | Winner at JPMC code for <good> 2024 | Full Stack Web Developer | Specializing in MERN Stack Development

Bhubaneswar, Odisha, India

Summary

Hello, my name is Debangshu, and I am passionate about the world of web development. Currently pursuing my studies at Kalinga Institute of Industrial Technology, I am honing my skills and knowledge in the exciting field of technology. With a focus on full stack web development, I am dedicated to creating innovative and user-friendly web solutions.

Throughout my journey, I have been actively involved in various projects that have allowed me to gain valuable hands-on experience. The dynamic nature of full stack development has given me a comprehensive understanding of both front-end and back-end technologies, enabling me to tackle diverse challenges and deliver robust solutions.

I thrive in collaborative environments where creativity and problem-solving are encouraged. Working in multidisciplinary teams has not only sharpened my communication and teamwork skills but also exposed me to diverse perspectives and approaches. I strongly believe that collaboration is the key to unlocking groundbreaking ideas and achieving remarkable results.

Passionate about continuous learning, I stay up-to-date with the latest industry trends and technologies. This drive for knowledge has led me to explore the MERN stack (MongoDB, Express.js, React.js, Node.js), which has proven to be a powerful combination for developing dynamic and scalable web applications.

Experience

PayPal

Software Engineer

July 2025 - Present (1 year)

Chennai, Tamil Nadu, India

PayPal

Software Engineer Intern

May 2024 - August 2024 (4 months)
