Top Skills

Docker

Security (DDoS protection, SQL injection prevention, XSS prevention)

Data Partitioning (Sharding, Hash-based) and Replication (Master-slave)

Languages

Hindi (Native or Bilingual)

English (Full Professional)

Certifications

Modern AI Pro Essentials

System Design

Master Data structures and Algorithms using C++

Java Backend Development

Developing Android Apps with Kotlin

Syed Shuaib Zaidi

Software Development Engineer @ Amazon
Gurugram, Haryana, India

Summary

Experienced Software Engineer | Expert in System Design, Engineering Excellence and Leadership

As a Software Engineer at Amazon, I've led the development of engineering solutions that integrate robust coding practices with operational excellence. My career is defined by building scalable, secure systems, optimizing performance, and fostering innovation across teams.

➡# Engineering & Design Excellence:

With a strong foundation in system design, I consistently deliver high-quality, adaptable solutions that meet and exceed business needs. I excel at translating complex challenges into practical, maintainable solutions, ensuring system resilience in evolving tech landscapes.

➡# Coding Mastery:

I take a strategic, meticulous approach to coding—writing clean, maintainable code that follows best practices. My expertise spans multiple programming paradigms, focusing on modular, reusable, and functional-style code. I believe in self-documenting code that supports long-term scalability.

➡# Operational Excellence:

Ensuring system reliability and scalability is central to my work. I have led performance optimization initiatives, conducted comprehensive audits, and implemented proactive measures for peak traffic readiness. My proactive monitoring and quick incident resolution minimize disruptions and maintain high service availability.

➡# Leadership & Collaboration:

I value teamwork and mentorship, having guided junior engineers and collaborated with cross-functional teams to elevate code quality.

My extensive code reviews and actionable feedback have fostered a culture of continuous learning and improvement.

Driven by a passion for solving complex problems and leading impactful projects, I aim to leverage my skills in system design, coding, and operational leadership for future-focused engineering advancements.

Let's connect! I'm always looking to expand my professional network and collaborate with like-minded engineers and tech leaders. Reach out to discuss innovative ideas, share insights, or explore exciting opportunities in technology.

Experience

Amazon

Software Development Engineer

June 2021 - Present (5 years 1 month)

Gurugram, Haryana, India

Education

Faculty of Engineering and Technology, Jamia Millia Islamia, Central University, New Delhi, India

Bachelor of Technology - BTech, Computer Engineering · (2017 - 2021)
