## Experience

### Blinkit

4 years 11 months

#### Software Development Engineer 2

July 2023 - Present (2 years 11 months)

Bangalore Urban, Karnataka, India

- Re-architected a critical logistics service from scratch, improving scalability and reliability.
- Reduced infrastructure usage by cutting pod count from 285 → 50, saving millions annually. • Led high-impact DB optimization initiatives, reducing RDS size from 12xlarge → 4xlarge.
- Managed and mentored a team of 3 engineers; system throughput ~23M requests/day.
- Improved observability, reducing debugging and on-call resolution times significantly.

#### Software Development Engineer 1

July 2021 - June 2023 (2 years)

Bangalore Urban, Karnataka, India

- Built mission-critical features for Blinkit-Zomato integration systems.

- Engineered the fleet management system; improved partner signup pipeline by 7×. • Built payout platform, increasing partner retention by 2× through automation.
- Collaborated across logistics, supply chain, and payments systems

## Red Hat

### Software Engineer Intern

January 2021 - June 2021 (6 months)

Bengaluru, Karnataka, India

- Integrated security automation into CI/CD using Tekton pipelines.
- Defined and implemented security checks for enterprise-grade workflows.
- Improved compliance and pipeline reliability across internal dev teams.
