Sky7 Studio+Labs

Co-Founder

August 2016 - November 2017 (1 year 4 months)

Bengaluru

Blending design thinking & technology innovation to solve for India - while having fun!

Flipkart

Software Development Engineer II

May 2014 - July 2016 (2 years 3 months)

Bengaluru Area, India

Flipkart is India's ecommerce bellwether valued at over \$10B. I was part of their iOS Dev team.

Worked on many features of the Flipkart iPhone Retail App - UI Redesign, Ping chat, Notifications, Analytics & Configurations.

Found and fixed various security issues with the Flipkart App.

Althea Systems

Senior Developer

August 2011 - April 2014 (2 years 9 months)

Althea Systems was a social video discovery service startup funded by Intel Capital. Their consumer facing product, Shufflr, had over 5 million registered users from 160+ countries. Shufflr was available on iOS, Android, Win8 & Facebook.

Being part of a young and agile startup, I was able to learn and grow at a rapid pace - exploring, learning and working on multiple technologies such as Ruby on Rails, Android, Objective C(iOS), WinJS & Hadoop. I also had the opportunity to get my hands dirty with cutting edge platforms at that time like LG Smart TV and Windows 8.

National Instruments

Intern

June 2010 - August 2010 (3 months)

Worked on implementation of IEEE Research paper on Structural Similarity of Images for National Instruments using C++ and NI internal image processing libraries.

Education

Sri Jayachamarajendra College of Engg., MYSORE

BE, Computer Science · (2007 - 2011)
