MATLAB Onramp
ML beginner track
Javascript (Basic)

Imran Wahid

SDE 2 @Microsoft | Ex - Zeta, MathWorks | B.Tech in Electronics
Engineering at National Institute of Technology Rourkela.
Hyderabad, Telangana, India

Summary

Software engineer with a focus on backend development.
Experienced in Java, Spring Boot, and containerized environments
using Docker and Kubernetes. Interested in building reliable systems
and continuously improving core engineering skills through DSA and
system design practice.

Experience

Microsoft
Software Engineer
November 2025 - Present (8 months)
Hyderabad, Telangana, India
Working under Windows + Devices org.

Zeta
2 years 7 months
Software Development Engineer II
February 2025 - November 2025 (10 months)
Hyderabad, Telangana, India

Software Development Engineer - I
May 2023 - January 2025 (1 year 9 months)
Hyderabad, Telangana, India
Automating continuous deployment workflow for internal products.

MathWorks
Associate Software Engineer
August 2022 - January 2023 (6 months)
Hyderabad, Telangana, India

1. Development: Worked with Language of Tech Computing (LTC) team
and added new live control feature which provides users the freedom of
customisation of colours for 2D and 3D plot generation by integrating web
widget (built using Dojo library) in the live code editor of MATLAB.

2. Enhancement and testing: Worked on enhancement as well as unit testing and GUI testing of the existing live control which lets users visualise colours before use and get values in custom format without relying on 3rd party tools.

3. Documentation: Captured all the pain points regarding plot generation and documented the motivation, functional design, architectural design and all the behaviours of the live control in MATLAB live editor with LTC team.

4. Support: Provided technical support to the customers of MathWorks regarding problems faced on MATLAB, Simulink, Embedded coder, GPU coder, Polyspace and other MathWorks products.

Chegg Inc.

Subject Matter Expert

July 2020 - May 2022 (1 year 11 months)

My role involves providing comprehensive solutions to a wide range of calculus problems, helping students to understand difficult concepts, and guiding them through the process of solving complex equations.

Oceanblaze Private Limited

Backend development intern

June 2021 - July 2021 (2 months)

Bhubaneswar, Odisha, India

Developed a desktop application which can take land documents (written in Odia) issued by govt. of Odisha, fetch the data through optical character recognition and store them in desired format.

CodeSpeedy Technology Private Limited

Project Intern

January 2021 - February 2021 (2 months)

Provided code packets for real time chat application.

Education

National Institute of Technology Rourkela

Minor in Computer Science and Engineering, Computer Science · (August 2019 - May 2022)

National Institute of Technology Rourkela

Bachelor of Technology - BTech, Electronics and Instrumentation · (July 2018 - May 2022)

Malda Zilla School
· (2006 - 2018)
