Microsoft
8 years

Software Engineer 2
December 2022 - Present (3 years 7 months)
Hyderabad, Telangana, India

Software Engineer
July 2018 - November 2022 (4 years 5 months)
Hyderabad Area, India

1. Azure Monitoring-AlertUX: In this project I worked on Azure Portal UI Development which uses technology like TypeScript with ibiza framework along with knockout bindings.
2. Azure Compute-OneDeploy(OaaS): Here we worked in a team where we develop services for our internal customer do mitigation/configuration change on the azure in a safe way to reduce the regression as much as possible. This product has now enhance to support various levels of azure mitigations and deployment. I have worked supporting many azure targets like vm, tenants and various safety items.

I also developed a UI which is used by customer to track their deployment. This is done in react and node Js.

CSEA NIT Warangal
Joint Secretary
