Vishal Katiyar

SDE II @Microsoft | Ex - Amazon
India

Summary

Vishal is a 2021 graduate from IET Lucknow, holding a Bachelor of Technology degree in Computer Science. With a robust foundation in Data Structures and Algorithms, he has ventured into the realm of Deep Learning, completing a nanodegree course on Udacity in the same field. Bringing over 3 years of hands-on experience in the IT industry, Vishal has made substantial contributions to the FireTV team at Amazon.

Notably, he played a pivotal role in migrating 1M+ metrics, leading to cost optimization, improved privacy, and enhanced data filtering. His influence extended to device launches and feature delivery for the FireTV team, impacting over 90M+ users. Beyond his professional endeavors, Vishal is an avid participant in outdoor sports and actively explores new ideas in the startup landscape.

Experience

Microsoft

Software Development Engineer 2

September 2024 - Present (1 year 10 months)

- Started working on Data Engine as part of Dataverse team.

Amazon

Software Development Engineer

January 2022 - September 2024 (2 years 9 months)

Bangalore Urban, Karnataka, India
