Software Engineer 2 @ Microsoft | Ex- Fareye | Ex-Shopclues  
Jharkhand, India

## Summary

At Microsoft, my journey as a Software Engineer 2 is fueled by a robust educational background from the National Institute of Technology, Jamshedpur, where I honed skills in frontend and backend both. My role involves crafting innovative software architectures and tackling complex problems, which are pivotal in enhancing user experiences and pushing the boundaries of digital logistics.

Driven by values of determination and discipline, my focus is on maintaining high-quality standards and fostering effective teamwork. The tech industry's evolving landscape propels me to continually learn and adapt, ensuring our contributions are not only innovative but also align with the competitive benchmarks of excellence.
